

## SIDE BY SIDE CLASP

By Hattie Sanderson

- Create bone dry metal clay Maglettes™ for size 3.25 magnets according to the kit instructions.

- Roll a snake of metal clay and form it into two identical loops. Dry. Sand the bottom of the loops flat.

- Carefully texture the bone dry Maglettes™ using a rotary tool with a sanding tip. Wear a dust mask.

- Paste a metal clay loop to the center back of each of the Maglette™ components. Dry.

- Fire, finish and epoxy the magnets in place according to the kit instructions. Add chain, cording, or beads to the clasp as desired.
